The request filed on 7-02-01 for a Continued Prosecution Application (CPA) under 37 CFR 1.53(d) based on parent Application No. 09/245,288 is acceptable and a CPA has been established. An action on the CPA follows.

Claim 11 is objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 and 6-12 are rejected under 35 U.S.C. 102(b) as being anticipated by Thompson.

The rejection is maintained as in the previous office action.

In addition, Thompson teaches a delineated mounting surface, and a plurality of conduction sections 23 substantially delineating fabrication alignment. To further clarify, the mounting surface is substantially delineated by the substrate

perimeter. Also, the limitation, "substantially delineating fabrication alignment" is a statement of intended use which does not result in a structural difference between the claimed product and the product of Thompson. Further, because the product of Thompson is inherently capable of being used for the intended use; the statement of intended use does not patentably distinguish the claimed product from the product of Thompson. Similarly, the manner in which a product operates is not germane to the issue of patentability of the product; Ex parte Wikdahl 10 USPQ 2d 1546, 1548 (BPAI 1989); Ex parte McCullough 7 USPQ 2d 1889, 1891 (BPAI 1988); In re Finsterwalder 168 USPQ 530 (CCPA 1971); In re Casey 152 USPQ 235, 238 (CCPA 1967). And, claims directed to product must be distinguished from the prior art in terms of structure rather than function. In re Danley, 120 USPQ 528, 531 (CCPA 1959). Product claims cover what a product is, not what a product does. Hewlett-Packard Co. v. Bausch & Lomb Inc., 15 USPQ2d 1525, 1528 (Fed. Cir. 1990).

Applicant's remarks filed 7-31-01 have been fully considered and are addressed supra.

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action

Art Unit: 2814

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
